PROFILE

I am a JavaScript Full Stack Developer aspiring to join a dynamic, active company to create in-demand business solutions.

I know HTML, CSS, JavaScript, React, Node.js and have practical experience using them - have written three individual projects and participated in three team projects with a 1st place result.

Additionally I'm studying TypeScript. In all projects I try to add additional functionality. In team projects I was guided by Agile/Scrum methodology.

TECH SKILLS

Coding Languages

JavaScript, HTML/CSS

Frameworks/Systems

React, Node.js, MongoDB, Express, Redux, GIT, REST API, OAuth, Formik/joi, Postman

SOFT SKILLS

- Responsible. No matter how difficult it is, I fulfill my tasks.
- Tactful. I stick to the rules and do not allow conflicts.
- Eager to learn. I like to learn new things and use them.
- Teamwork. Expressing my opinion without offending others.
- English - Intermediate
- German - Intermediate
- Ukrainian, Russian - Native

PROJECT EXPERIENCE

- Petly (MERN) [Node.js, MongoDB, React, Redux, SASS, OAuth]. Pet search/advertising app with authorization, multilingual support and responsive design. Role: scrum-master/developer (authorization, news, multilingual).
- Phonebook (web application) [React, Redux, firebase, OAuth, axios, material-ui]. Application for managing phone contacts. Allowing CRUD operations on contacts, authentication including via Google account.
- Filmoteka (web application) [HTML, SASS, JS, REST API, AJAX, parcel]. Application for choosing a movie. Role: developer(modals).
- Ice Cream (landing page), [HTML, SASS, JS, parcel]. A website with a responsive layout. Role: developer(modals and contacts-section).
