PROFILE

I am a JavaScript Fullstack Developer aspiring to join a dynamic company to create in-demand business solutions. I know HTML, CSS, JavaScript, React, Node.js and have practical experience using them - have written more than a dozen individual projects and participated in three team projects. Additionally, I'm studying TypeScript. I try to implement additional functionality demanded by potential users. During team projects, I adhere to the Agile/Scrum methodology and have experience performing tasks as a Scrum Master.
